Office of behavior health

Kim Welch

DR. Karen Murphy secretary
Jon Wolf

• DR. Karen Murphy secretary
30 Kline Village
Harrisburg PA 17104

625 Forster St #802
Harrisburg PA 17120

• ADA Act

• Civil rights Act of 1964

• Honest service fraud

Complaint

I have come to the Courts to ask for rules on state money to have sexual conduct contracts with a clause for voice testing with the act of losing license, a severe fine and maybe jail time.

Without these safeguards we fall to failing to protect the special class of people with the law intent to protect.

But under the Mercy institute they use the funding for Mercy services of insurance tracking, Mercy's fellatio service and other sex acts they do.

All Mercy service have some kind of Mercy's fellatio service and other sex acts they do.

I go down to south 9th, Mercy has four building and many office where they run their main operations of Mercy's fellatio service where staff take patients of staff and staff. At 315 is where I have

(2)

seen them staff line up the Patient's they do it in the lobby so the Patient's can watch them on their knee's, they told us they have a computer room which they been saying for seven best they use this as getting heart room. This room is used for staff who need money so their do any kind of service the Patient's want. I have been asking to stop it or to end for a right to honest service.

• My first Complaint was on 11-27-11 at that time I was in Wolfe support house. I walk up to take my Pills. I sit down and Heather Brown turn on the tv and the Steelers vs Chiefs. As I was watching the game Roy give me my pills. I start to watch then Roy pulled down his pants then Heather Brown got into doggy style position then Roy grabbed her head then Heather began giving fellatio service, so I was in total disarray, it shocking my conscience.

(5)

- So I left and called the office of behavior to file a Complaint on me.
I called my Patient Advocate so he knows it could help.
- Roy said to me if I couldn't give me fellatio services and if I don't give him Dirty Sanchez, that he would tell everyone we had homosexual relationships together.
- 1-3-11 they commit on a 302 which this was, because of, I found out about the staff having fellatio services with the Patient's their call it late night, I ask to many questions about what staff is doing.
So they made me recant my statement so I could get out of the hospital, I was so scared at that time, I makes that chose of wanting to be free, The Mental health court are not about the law but what Doctor and EIT;

(4)

• I couldn't call the cops while what would happens is mercy would use the serious mental disorder of psychosis, which they use for a 302 commit, which a patient can't make a legal counterclaim of legitimacy of their claims;

• Mercy X - John K. had start around 2011, The investigate on my sex live and what are my weakness, He used to see Mary and her mom which is the same place I grow up in Mapleview

John said Kim Welch give him money to pay for information about what kinds of sex I had with women, which I use to be very violent-tempered man who use to hit and beat on women,

This came from my childhood where my when I was young boy my mom used to beat me with a iron cord, she would would give me public humiliation so the day came when I took the iron cord and grab her by her throat and started choking, which I tried hard to keep in my passed, but

this is how they got inside
 head, so they can abuse me
 this is how they start making
 trouble, X John K would use
 therapy sessions to pump in
 information about my neighbors
 So the people of Mapleview would
 give information about me
 This mercy standard operation
 procedures for any patient
 who won't obey them

• When mercy kicked me out of
 Wolfe support housing, so
 Mercy etc exercising their rights
 of bellator services for a Mental
 retarded man to inflaming
 passion by spying to me
 "that's why they raped your in
 camp" "your a bitch"
 This causing a fight which
 I told I can't go to group"
 Why they said they did that was
 because I filed a Court Case on
 mercy on 12-12-12- They are going
 punishing for doing that

⑥

So mercy issue, a 302 warrant which the Cops came to my apartment, I was sleeping, When I felt some thing to the back of my head.

A man told me if I moved he would blow my head, so I had my hands where up, the other man told him that my hands where up, They where about twenty or thirty cops, They where very mad at me so they slapping handcuffs on, While I was going to Western Psychiatric, I told the cops that my hand was going numbness, when I got to WPI and the cop took off handcuffs, my hand was blue and my wrist was red,

When they took my to one of the ~~flat~~ floors they tried to strip search me which I refused, now they get away with this is WPI made up its own patient bill of rights to commit grand larceny by trick on the Patient, The States Patient bill of right said they have to treat me with dignity and Respect.

• The Mental Health Court, which refused to heard on the law issue, equal protection of the law, 14th amendment of Privileges and immunities clause, Hobbs Act, Freedom of Speech, Freedom of association, The Petition clause protects the right "to petition the government for a redress of grievances,"

The Pennsylvania State Constitution Article X said that all nonprofit must obey the state Constitution;

section 1 - inherent rights of Mankin

section 2 - Political Powers

section 6 - Trial by Jury

section 7 - Freedom of Press and Speech; Libels

section 11 - Courts to be open; Suits against the Commonwealth

section 12 - Power of suspending laws

section 17 - Ex Post Facto laws; Impairment of Contracts

section 20. Right of Petition

section 25 Reservation of Powers in people

section 26 - No Discrimination by
commonwealth and its Political
subdivisions

"So tried my best for ten months,
mercy put my stuff in storage,
this is where they give a choice of
storage or they where going to
throw in the trash, so I had to
sign a contract, I am trap I have
to save my stuff, I ask for my
paperwork for a right to take
my issue to the magistrate,
my said we got in the hospital
and you lost that right, so
I ask the office of behavior
health, the said its called a 302
violation, I ask them is this a
lawful act, They told me they
didn't care thats not their job,
then then they made me go from
two to team four, which the
office of behavior it was my
team was mental abusing me"

(9)

Then I start working with Mist
she start talking to me, I started
as a working r then she start
shocking her ass at me, tell me she
want to be like, she know what
turn me on, & he would me to
text and tell her how turn on
I was and I would go down
on her then she tryed to go
down on a patient in the lobby
to turn me on, so I text her,
Then she ask me to go down
on her in the lobby so the other
patient's can watch, so she got
mad at me and turn in my texts
to the boss, so she ask her
what did she do, she was going
to take her out of groups,
& Miss P said in the lobby
at the party to me in front of
all the patient's that she want
to have sex with me and I better
do something;

A week later she came to
my apartment but she turn on
me, All I did was touch her hair

(10)

so she got to my apartment she
 start yelling at me tell what a
 bad person, it would better if
 you kill your, your mom should
 never had you, you should just die,
 much more which it still hurt. it,
 this how she tried to inducing
 psychosis in me to cover up what
 she had done to me, she was get
 help from Mrs Herman who give her
 lots of help, she is are team leader,
 Mrs Palowski was the therapist who
 has the skill to mental manipulation
 any patient she feel like, at any
 time she wants to,

They one of the Boss out of 249 the
 second ho building, Mrs Megan
 called me to her office, to questions
 on what Mrs Palowski said that
 I touch her when she came to
 my apartments so she tell me how
 she feel about that and what
 I did was very wrong,
 I couldn't tell her I made a deal
 in 2-1-14, which I wouldn't tell on
 the staff for patient best they

(11)

they would take good care of me.
So two weeks later Mrs Maynor found out that I forgot to tell her why Mrs Palowski was coming to my apartment with the explicit purpose of having sex with me a patient.

Then she got Psychiatric doctor to act and had to pay to 307 after what Mrs Palowski told him, he & I would medication of Licitada (40 mg)

Mr. Dewolf said all my medication would be billed but he said he can't work for mercy because they keep asking me to be dishonest to the patients.

The Mrs Palowski said she was sorry for what she had done, she said she couldn't handle it, so she had to do something to me, so she showed me that by rubbing on my leg with her pussy, she put her fingers on her female lips, But I refused to text her.

She start a rumors that I had to be a homosexual,

She told the patient that I willnt grab her up and take from her,

I am not a Rapist like some of the patient's in the program,

This is how Mrs Palowski use her power as a ETT member to commit crimes against persons with mental illness by doing Psychosis, Mental abuse, mental manipulation, grand larceny by trick, manipulation of sexual desires, false solicitation:

The only was for me to refuse my sexual desires that Mrs Palowski creat within me, so I wrote texts,

I feelled at that time I want to give in to my desires, I was so tired of the tease, A man as my intelligence always worried all about the consequence, for what I think I cannt trust her, she has done nothing so I can trust,

She would do thing to me by solicitation to make me have a strong sexual desires, So

what I did, I made the same mistake twice, I texted her after a while Mrs. Palowski found a new ally in the team leader Mrs. Herman and she was going to do something to me for texting her like that,

I trying to get a message to the big boss that mercy front desk start play games with my head, When I did talked to the big boss, she totally abandoned me, she said she don't remember, So Mrs Herman told me that Kim Welch had suspended the Americans with Disabilities Act, so she is allowed to take me out of group for the next six weeks,

This is why Mercy bellatio services and other sex acts,

They like doing it in group that makes their job more easy,

For Mrs Herman she use her office to bring patient's back into her office to have sex,

(14)

- My two out my investigation has found mercy abuse of power and many kind of sex acts they do with the patient's, me having a legal and Moral obligations as a human being to bring the truth of

South 9th st, All four build are used for mercy ho program, Mercy Fellatio services;

315 the program is run like a house or a brother;

- Doctors, therapist and other mental health works would get on their knee for the patient's in the lobby;

- Doctors, therapist and other mental health works would use the side room for them to do services;

(5)

- Doctors, therapist and other mental health works used biongo group at one time for you win you got a gift and services;
- Doctors, therapist and other mental health works use groups for their services;
- Doctors, therapist and other mental health works use their back office to do those service for the patient's;
- The Doctors office at 249 is used for Merry pillatio services and other sex act is where the patient go to services;
- Doctors, therapist and other mental health works uses the offices at 249 to take the patient to do services;

(16)

- Doctors, therapists and other Mental health workers used to use the Park lot to give services to Patient's;
- Doctors, therapists and other mental health work use their home visits to Perform their job of bellatio services than bill the insurance company for those services they commit to;
- Doctors, therapists and other mental health work use their Power of discretion of their smoke Policy, The use they power of mercy bellatio service and other sex act to enforce the Policy;
- Doctors therapists and other mental health work start to bragging to the Patient what they where going to me (Will Ackerman) for telling on mercy bellatio services and other sex act, what they where going to do, so they are going to give

(17)

volunteer solicitation of sex so they can glimpse Psychosis so they could do filing of criminal charges so they can elimination of a problem a Patient who can think on his own and my believe in democracy;

- Doctors and therapist and other mental health works, they spend a lot of time finding staff to do something to the patient's; They back this up with mercy, tellatio services and other sex act, So with this power they can and will cut to messing with the patient's lives;

- Doctors and therapist and other mental health works, use the back for orgies or sex parties, Male staff call it no times, This where male staff find a female or another male staff, or a female finds another female to have all types of sex;

(18)

- Doctors and therapist and other mental health works, in all Mercy program to give Mercy Fellation services and sex acts for patient's and staff;
- Now my questions is Kim Welch have the power to give permission to the Allegheny county mental health works to give Mercy Fellation services and sex acts they do for the patient's and staff?
- My other questions is Mercy state funds is to be used for treatment of the mental ill, but what I have seen is patient's are more worry about getting a blowjob, Now what I need to know can the staff blurving the issues or what treatment is about?
- My other questions is why can't the health department have no rules on state funding to make it to do their and backup with Voice testing of all mental works?

(19)

When I do ask the office of behavior health for their help to have Mrs Palowski and Mrs Herman to be voice testing, I told them I can't take any more mental abuse by them, can they help me, I was have a problem with my diagnosis - Axis II - Borderline intellectual functioning. Dsm IV said Borderline intellectual functioning is a cognitive impairment that applies to people who have lower than average intelligence but do not have intellectual developmental disorder or Mental retardation. Borderline intellectual functioning is diagnosed by IQ test scores that are between 71 and 84. People with borderline intellectual typically have difficulties with learning, reasoning, planning, abstract thinking, and judgment. Lower than average intellectual functioning.

(20)

I handling my own personal affairs.
 I believe this how mercy commits
 fraud against the state. What
 mercy is very good at doing a
 cover up by telling lies about me.

Every time I ask for help from the
 office of behavior health, they make
 me feel I should have never ask
 them, I also ask for a IQ test for a
 right to show mercy fraud which
 they commit every day they open their
 doors, I do one sex act after another
 which means that mercy staff can't
 keep their hand, I am saying
 with staff they eat the rights
 of, culling all of them and acting
 or doing or continuing the act of
 a felony rape,

What can a Patient's like me
 can do to stop them?
